

PILLAR BEACON PARTNERS

Clarity and continuity beyond the point of care

FOUNDER STATEMENT

This work began after direct experience with the probate process. It began with observing how responsibility is assigned quickly, often before the structure of the process is explained.

Probate establishes legal authority. It requires the identification of assets, the review of debts, and the orderly distribution of property. These responsibilities follow a sequence defined by court procedure and applicable law. Individuals are often expected to act within that sequence without a clear explanation of timing or scope.

Pillar Beacon Partners was established to bring structure and sequence to probate-related responsibilities. The purpose is not to replace attorneys, financial professionals, or other licensed providers. The purpose is to ensure that legal, practical, emotional, and spiritual considerations are aligned with the stage of the process in which they arise.

The objective is procedural clarity and continuity beyond the point at which professional services conclude.
